Take Stock in Children

Take Stock in Children provides an educational pathway for deserving, low-income students. Since 1995, we have helped over 32,000 at-risk children stay in school, graduate from high school, and become productive citizens. This success is achieved through an innovative multiyear program model of mentorship, college success coaches, accountability, college readiness skills training and scholarships. Over 95% of our students graduate from high school and 92% go on to pursue a postsecondary education, well over the national average.

Program Model

Take Stock in Children achieves success through an innovative multiyear program model of mentorship, college readiness, accountability, and a college scholarship.

The Scholar’s Promise

Take Stock in Children scholars promise to graduate from high school and go to college. They begin the program in middle and early high school and sign a contract, promising to achieve both academic and personal goals. These include meeting with their mentor weekly, maintaining good grades, remaining drug and crime free, demonstrating good behavior and attendance, and participating in college readiness workshops. When they reach high school graduation and have fulfilled these commitments, they are awarded a scholarship to a Florida college, university or vocational/technical school.

Take Stock in Children students outperformed their peers in all seven performance areas examined.
